What Is NACKERD?

NKRD is a Solana-based meme token created for the everyday working man and woman. No fake roadmaps, no broken promises. Just a simple idea: **reward the hustle**.

We built NKRD for grafters — the ones who build the world but never get a seat at the table. This isn't about getting rich quick; it's about recognizing the value of honest work.

In a world full of suits and venture capital hype, NACKERD stands for something different: **grit over gimmicks**.

Built by Grafters, for Grafters

No corporate backing, no institutional investors. Just real people who understand the value of hard work and want to build something meaningful together.
